Anamay Tripathy

Data Science Engineering @ MIT Manipal | Python • ML • Full-Stack
| Data Analyst Intern @ Intellect Design Arena | Building AI-powered
products
India

Summary

Data Science Engineering student building at the intersection of ML, analytics, and full-stack systems — turning complex data into tools that drive smarter decisions.

Proficient in Python, SQL, and Machine Learning. I care about the full stack: from model to product, from insight to interface.

Open to roles in Data Science, ML Engineering, Quantitative Analytics, and Product Engineering.

tripathy.anamay23@gmail.com | anamay.vercel.app

Experience

Intellect Design Arena Ltd
Data Analyst & Web Development Intern
June 2025 - July 2025 (2 months)
Mumbai

Interned at Intellect Design Arena, a global fintech product company, within their core banking technology division. Built an EMI collection agent management platform with an analytics dashboard using Python and SQL, achieving 85% code coverage across 150+ automated tests and improving data accuracy by 30%. Also developed agent performance tracking dashboards and implemented CI/CD pipelines via GitHub Actions to streamline automated testing and deployment.

E-Cell, MIT Manipal
Executive
August 2024 - May 2025 (10 months)
Manipal

Led end-to-end development and maintenance of the official E-Cell MIT Manipal website for MES 2025, one of India's largest student entrepreneurship summits, featuring speakers including Ashneer Grover, Raj Shamani, and Dr. Velumani. Coordinated with the team to manage event-day digital infrastructure ensuring zero downtime through high-traffic periods.
